Prof. Karen Avraham, Faculty of Medicine & Sagol School of Neuroscience, Director of the Healthy Longevity Center

Introduction - Start – 00.6.51

Prof. John Rowe, Columbia University

Current Trends in GeroScience, Geriatric Medicine & Gerontology 00.6.51 - 00.26.50

Prof. Eliyahu Mizrahi, Shmuel-Harofe, Geriatric & Rehabilitation Center & School of Medicine

Everything you would like to know about Geriatric Medicine and did not dare to ask 00.29.26 - 00.43.33

Prof. Daphna Hacker, Faculty of Law

Elder law and its justifications 00.44.18 - 00.53.30

Dr. Moran Bodas, School of Public Health, Faculty of Medicine

End of life decisions 1.10.34-1.24.19

Prof. Yael Benyamini

Stories of life during the pandemic 1.24.43-1.39.20

Prof. Khitam Muhsen, School of Public Health, Faculty of Medicine

Effects of Covid-19 vaccine booster in long-term care facilities in Israel 1.40.11-1.48.42

Prof. Silvia Koton, Head of the Herczeg Institute on Aging and Dept. of Nursing, School of Health Professions, Faculty of Medicine

Stroke, dementia, and multidisciplinary aging research 1.49.40-2.04.51

Prof. Uri Ashery, Faculty of Life Sciences & Sagol School of Neuroscience

Neurodegenerative diseases in aging 2.05.25-2.10.46

Prof. Noam Shomron, Faculty of Medicine

Genomics of aging-related diseases 2.17.37-2.20.36

Dr. Jason Friedman, School of Health Professions, Faculty of Medicine

Effect of age on the ability to make slow, smooth movements 2.20.43-2.26.04

Prof. Amos Korczyn, Faculty of Medicine

Why have we failed to cure Alzheimer's? 2.11.09-2.17.11

Sapir Golan, Faculty of Medicine

Regional abdominal adiposity and related factors are associated neuropathology and cognitive functioning in adults at high AD risk

Dr. Avraham Ashkenazi, Faculty of Medicine

Aggregate-prone protein degradation and transmission in age-related diseases 2.26.25-2.31.01

Dr. Tali Cukierman-Yaffe, Epidemiology, Sackler School of Medicine

The challenges of healthy aging with diabetes 2.31.14-2.36.20

Prof. Matti Mintz, School of Psychological Sciences

Sensori-motor balance in aging 2.36.25-2.42.19

Prof. David Bergman, Faculty of Exact Sciences

Discrimination of retirees by TAU 2.42.28-2.45.46

Prof. Illana Gozes, Faculty of Medicine

Aging somatic mutations and drug development 2.45.55-2.50.30

Prof. Yariv Gerber, Public Health/Epidemiology and Preventive Medicine, Faculty of Medicine

Diet quality and successful aging among the oldest-old: the Israeli Longitudinal Study on Aging

Prof. Jehiel Ziv, Coller School of Management

Personal strategy and change readiness for the golden age 2.50.40-2.55.59

Prof. Yoav Gothilf, Faculty of Life Sciences

Disturbed circadian clock system and aging: Research opportunities in zebrafish

Dr. Noham Wolpe, Health Professions, Faculty of Medicine

Impact of mental health on ageing 2.56.25-3.00.42

Dr. Irit Bluvstein, Herczeg Institute on Aging and Department of Nursing

Sensitive Research in the aging field and the researcher vulnerability 3.01.00-3.06.29

Mira Marcus-Kalish 3.07.48-3.12.40
