

GRANTS FOR COLLABORATIONS BETWEEN SCHOOLS OF THE FACULTY OF MEDICINE

The Dean's Council of the Faculty of Medicine at Tel Aviv University and the Samuelli Foundation is generously supporting a venture to increase collaborations between the Schools of the Faculty of Medicine and promote research excellence among Preclinical Faculty. The Research Fund will provide two grants of up to 50,000 NIS each, supporting basic, clinical and translational research focusing on Innovation and Biotechnology.

Criteria – interactive collaboration between two Preclinical Faculty - each must be from a different School: School of Medicine, School of Health Professions, School of Public Health, and School of Dental Medicine.

Grants will be coordinated by the Grants Committee and evaluated by peer review.

Preclinical Faculty are tenure-track academic research track PIs employed by Tel Aviv University. Previous awardees are not eligible to apply.

APPLICATION FOR UP TO 50,000 NIS GRANTS
