The Tel Aviv University Innovation Laboratories (TiLabs)

Call for Student Fellowships for Multi-Disciplinary Research

The Tel Aviv University Innovation Laboratories (TiLabs) is a newly established research center which harbors multi-disciplinary projects based on strong partnership with industry and the public sector. TiLabs announces an open call for research fellowships to support outstanding students aiming to carry out research at one or more TiLabs teams. The scholarships are intended for research students (M.Sc, M.A. and Ph.D.).

TiLabs currently includes seven fields:
2. “Robotic Augmentation” led by Dr. Goren Gordon.
4. “Act-Play-Game” led by Dr. Sharon Aronson-Lehavi.
5. “Computational Economics” led by Prof. Michal Feldman.
7. “AI Lab” led by Prof. Amir Globerson

Application requirements:
1. A one-page statement which includes:
   • Interest and suitability to one (or more) of the TiLabs
   • Background, aims and skills
   • Motivation to become part of TiLabs
2. A short CV of the applicant emphasizing multidisciplinary work and high academic excellence.
3. Submission deadline: February 6, 2022

A few examples of research projects that will be active in TiLabs during 2022:
1. Building a Character: Actors in Dialogue with Robots by Dr. Goren Gordon and Dr. Sharon Aronson-Lehavi.
2. Studying the Colonization of a New Building by Organisms Other than Humans by Prof Noam Shomron and Prof Tali Hatuka.
3. Human health and the urban region (HURBANISM) by Prof Noam Shomron and Prof Tali Hatuka.
4. Machines and Human Performance in Varied Urban Settings by Prof Tali Hatuka, Dr. Goren Gordon and Dr. Sharon Aronson-Lehavi.
