

The Third Medicine & Humanities Interdisciplinary Colloquium

Spring Semester 2019-2020

Organized by: **Dr. Galit Wellner, Prof. Noam Shomron, Prof. Karen Avraham**

Medicine and Humanities share a common research subject – humans. The basic and fundamental difference is the methodologies and research strategies applied, which could lead to similar or opposing conclusions. In the Colloquium, now in its third year, we will examine how the two disciplines approach the same topic, and discuss how the anomalies might contribute to a richer outcome.

- The Colloquium will take place in the Spring Semester of 2019/20, approximately once a month on Tuesdays.
- The meetings will be held at various locations on the Tel Aviv University campus.
- A light breakfast will be served before each meeting, sponsored by the Biomed@TAU Research Hubs & Adelis Foundation.
- Lectures will be held in Hebrew, unless stated otherwise.
- Attendance is free of charge.
